Research Experience

University of Illinois at Urbana-Champaign — Urbana, IL
PhD Student — Advisor: Prof. Saurabh Gupta — *Jan. 2021 - Present*

- **Real World Robotics.** Developed end-to-end mobile manipulation pipelines for real robots (integrating perception, navigation, and manipulation) which generalize to *in-the-wild* settings across 10+ buildings [1, 2].
- **Computer Vision.** Trained state-of-the-art computer vision models for improving robustness in 3D vision [3, 4].
- **Motion Planning.** Developed a TrajOpt-based approach which outperforms existing planning methods [5].
- **Sim2Real RL.** Designed sim2real reinforcement learning approaches for navigation via learning from videos [6, 7].

Hello Robot Inc. — Martinez, CA
